

The Technology Department has been compiling a number of resources which can be used to educate our students about the important issue of Online Safety. The resources can be found on the Technology Web site by selecting the Online Safety button, or at: <http://www.lcmcisd.org/tech/onlinesafety.htm>

We know many of you are already using online and Internet safety resources; however, we wanted to share the additional resources with you. We hope you find them valuable.
